

# Birko Soup Kettle 9 Litre

**A sturdy insulated kettle for storing and serving hot soup.**

If you need to serve hot soup on demand, this safe, sturdy and stylish soup kettle has everything you need at exceptional value.

**Built to last** – Aluminium construction with stainless steel heating element and water tank.

**Stable** – a robust pressed powder coated body with safe lifting handles and rubber feet for maximum stability.

**Safe** – a hinged lid to minimise spills.

**Wet style operation** – Side handles for lifting, simply fill the internal cavity with water and the soup kettle heats the water to heat the soup via the inner bowl efficiently and evenly.

**Temperature controlled** – By setting the dial to the heat level that you require, the simmerstat will maintain your soup at an ideal serving temperature.
